## Career Objective

---

Aspiring Software Developer with strong problem-solving skills and a solid foundation in Java, MERN stack, and Data Structures. Seeking a challenging role to build impactful applications and contribute to real-world solutions, while exploring emerging technologies like AI.

## Skills

---

**Languages:** Java, C, SQL, Python, HTML, CSS, JavaScript

**Tools:** Git, VS Code, Jupyter Notebook, Postman, MongoDB Compass

**Cloud/Databases:** MongoDB, PostgreSQL, Cloudinary

**Frameworks:** ReactJS, NodeJS, ExpressJS

**Coursework:** Data Structures, Algorithms, OOPS, DBMS, OS

**Soft Skills:** Leadership, Communication, Public Speaking

## Education

---

**United College of Engineering & Research, Prayagraj**

**2022 – Present**

B.Tech in Computer Science — **CGPA: 7.7/10**

Affiliated with Dr. A.P.J. Abdul Kalam Technical University, Lucknow

**BBS International School, Prayagraj**

**2021 – 2022**

Intermediate — CBSE — **91.4%**

**BBS International School, Prayagraj**

**2019 – 2020**

High School — CBSE — **88%**

## Projects

---

**Job Portal Web App** | *React, Node.js, Express, MongoDB*

- Built a full-stack job portal supporting 2 user roles (Recruiter & Applicant) and 100+ job listings.
- Implemented JWT authentication, role-based access control, and dynamic CRUD features with MongoDB.
- Integrated Cloudinary for file uploads and designed a responsive UI using Tailwind CSS.

**YouTube Video Analytics** | *Python, Pandas, Streamlit*

- Analyzed data from 100+ videos to identify patterns in views, likes, and engagement.
- Enhanced insight accuracy by 25% using Pandas and visualization tools.
- Built a live dashboard using Streamlit to track real-time channel performance.

**Chat App** | *Java, Spring Boot, WebSocket, MongoDB*

- Developed a real-time messaging app handling **100+ concurrent users** with WebSocket and Spring Boot.
- Stored and retrieved over **10,000+ messages** using MongoDB efficiently.
- Built responsive UI with secure authentication and session handling.

## Achievements

---

- Ranked in the top **10%** globally on **LeetCode**.
- Solved over **300+** problems in Data Structures and Algorithms across **LeetCode** and **GeeksforGeeks**.
- Selected among the **Top 40 candidates** in college for an advanced DSA training program conducted by **GeeksforGeeks**.

## Certifications

---

- **2025:** Data Structures & Algorithms — Udemy
- **2024:** Backend Development — Physics Wallah
- **2025:** Web Development — Udemy
- **2023:** Java Development — United Global Infoservice Pvt. Ltd.
- **2025:** AWS Cloud Fundamentals — GeeksForGeeks
